Software Test Design Document

Introduction

This document describes the test design phase where requirements are transformed into specific test scenarios for the **Nirvana Japanese Spa** website based on Software Requirements Specification (SRS) to ensure maximum functional coverage

The purpose of this document is to define test scenarios and test cases to validate the system functionality, usability, and performance.

Detailed defect reports are documented in a separate "Bug Report document".

Scope

This document covers testing of the Nirvana Japanese SPA website(<https://nirvanajapanesespa.com>), including functionality, navigation, services, booking form, localization, and user interface.

The scope includes validation of:

1. website functionality
2. navigation
3. services catalog
4. booking and contact form
5. localization (multi-language support)
6. user interface and usability

Test Scenarios Homepage

TS-01H: Verify homepage display introductory text about the spa with additional active buttons

Requirement ID: 3.1.1

Navigation & Buttons

TS-01: Verify navigation to "About Us" page from homepage

Requirement ID: 3.1.1.1

TS-02: Verify navigation to "Services Catalog" page

Requirement ID: 3.1.1.2

TS-03: Verify "Contacts/Booking" button functionality

Requirement ID: 3.1.4

TS-04: Verify all links on homepage are active and lead to correct pages

Requirement ID: 3.1.5

3.1 Homepage Content

TS-06: Verify introductory text is displayed on homepage

Requirement ID: 3.1.1

TS-07: Verify recommended services and promotions are displayed

Requirement ID: 3.1.2

TS-05: Verify navigation is clear and accessible

Requirement ID: 3.1.3

Social Media

TS-08: Verify social media links are displayed (Facebook, Instagram, TikTok, YouTube)

Requirement ID: 3.1.8

TS-09: Verify social media links redirect to correct pages

Requirement ID: 3.1.8

Gallery

TS-10: Verify "Gallery" button/link is present and clickable

Requirement ID: 3.1.9

TS-11: Verify navigation to gallery page

Requirement ID: 3.1.9.1

TS-12: Verify gallery categories are displayed

Requirement ID: 3.1.9.2

TS-13: Verify lightbox preview functionality

Requirement ID: 3.1.9.2

TS-14: Verify images are optimized (load time / performance)

Requirement ID: 3.1.9.3

Localization & Layout

TS-15: Verify consistent layout across all supported languages

Requirement ID: 3.1.5

TS-16: Verify Hebrew layout is displayed right-to-left (RTL)

Requirement ID: 3.1.6

TS-17: Verify logo position in Hebrew version (right side)

Requirement ID: 3.1.6

Footer

TS-18: Verify spa physical address is displayed in footer

Requirement ID: 3.1.10

Content & Structure

TS-19: Verify "About Us" page content

Requirement ID: 3.2.1, 3.2.2, 3.2.3, 3.2.4

TS-20: Navigation to About Us Page

Requirement ID: 3.2.5

3.3 Services Catalog

TS-21: Verify "Services Catalog" page content and structure

Requirement ID: 3.3.1.1, 3.3.1.2

TS-22: Verify services display with description, duration, and price

Requirement ID: 3.3.2.1, 3.3.2.2

TS-23: Verify service categorization (Individual, Group, Couples)

Requirement ID: 3.3.2.3

TS-24: Verify payment link and filtering functionality in catalog

Requirement ID: 3.3.2.4

TS-25: Verify default collapsed state of services and tab behavior

Requirement ID: 3.3.2.5

TS-26: Verify navigation to "Services Catalog" page from homepage

Requirement ID: 3.3.2.6

3.4 Promotions & Discounts

TS-27: Verify "Promotions and Discounts" page content

Requirement ID: 3.4.1

TS-28: Verify display of promotional packages with price and included services

Requirement ID: 3.4.2.1, 3.4.2.2

TS-29: Verify dynamic update capability of promotions (admin functionality)

Requirement ID: 3.4.2.3

TS-30: Verify navigation to "Promotions and Discounts" page

Requirement ID: 3.4.2.4

3.5 Company Policy

TS-31: Verify "Company Policy" page content and structure

Requirement ID: 3.5.1

TS-32: Verify display of booking terms, cancellation policy, and restrictions

Requirement ID: 3.5.2

TS-33: Verify Company Policy page content and navigation

Requirement ID: 3.5.3, 3.5.4, 3.5.5

3.6 Payment / Contact Form

TS-34: Verify contact and booking form functionality

Requirement ID: 3.6.1

TS-35: Verify form fields (Name, Phone, Email, Message)

Requirement ID: 3.6.2

TS-36: Verify service selection dropdown functionality

Requirement ID: 3.6.3

TS-37: Verify booking request submission

Requirement ID: 3.6.4

TS-38: Verify optional contact information display (phone, address)

Requirement ID: 3.6.5

TS-39: Verify gift payment option

Requirement ID: 3.6.6

TS-40: Verify redirection to secure payment page

Requirement ID: 3.6.7

4.0 UI / Design

TS-41: Verify overall UI design and Japanese-style theme consistency

Requirement ID: 4.1

- TS-42: Verify header and footer color scheme
Requirement ID: 4.2
- TS-43: Verify logo and social media placement in different languages
Requirement ID: 4.2.1
- TS-44: Verify navigation menu structure and links
Requirement ID: 4.2.2 (4.2.2.1 - 4.2.2.6)
- TS-45: Verify RTL layout for Hebrew language
Requirement ID: 4.2.3
- TS-46: Verify navigation text color behavior (inactive/active)
Requirement ID: 4.2.4
- TS-47: Verify page title styling and language consistency
Requirement ID: 4.3
- TS-48: Verify text color and readability
Requirement ID: 4.4
- TS-49: Verify link hover and click color behavior
Requirement ID: 4.5
- TS-50: Verify feedback buttons behavior (phone / WhatsApp)
Requirement ID: 4.6(4.6.1, 4.6.2)
- TS-51: Verify additional navigation button styles and hover effects
Requirement ID: 4.6.3
- TS-52: Verify "Scroll to Top" button functionality and styling
Requirement ID: 4.6.4
- TS-53: Verify social media icons in main section
Requirement ID: 4.7
- TS-54: Verify footer content (address, map, working hours, reviews)
Requirement ID: 4.8 (4.8.1 - 4.8.4)

4.3 - 4.4 Interfaces

- TS-55: Verify system compatibility with standard hosting environment
Requirement ID: 4.3.1, 4.3.2
- TS-56: Verify CMS/admin panel integration (if available)
Requirement ID: 4.4.1
- TS-57: Verify email server integration for booking requests
Requirement ID: 4.4.2
- TS-58: Verify Google Maps integration
Requirement ID: 4.4.3

5.0 Non-Functional Requirements

- TS-59: Verify page load performance (<3 seconds)
Requirement ID: 5.1.1
- TS-60: Verify system behavior under concurrent users
Requirement ID: 5.1.2
- TS-61: Verify cross-browser compatibility
Requirement ID: 5.1.3
- TS-62: Verify responsive design on mobile and tablet devices
Requirement ID: 5.1.4
- TS-63: Verify SEO optimization basics

- Requirement ID: 5.1.5
- TS-64: Verify HTTPS security implementation
Requirement ID: 5.2.1
- TS-65: Verify protection against spam and SQL injection
Requirement ID: 5.2.2
- TS-66: Verify secure handling of user data and payments
Requirement ID: 5.2.3
- TS-67: Verify usability and intuitive navigation
Requirement ID: 5.3.1
- TS-68: Verify external links open in a new tab
Requirement ID: 5.3.2, 3.1.7
- TS-69: Verify clarity of service descriptions
Requirement ID: 5.3.3
- TS-70: Verify mobile-first design implementation
Requirement ID: 5.3.4
- TS-71: Verify system uptime and reliability
Requirement ID: 5.4.1
- TS-72: Verify backup and restore capability
Requirement ID: 5.4.2
- TS-73: Verify admin panel functionality for content updates
Requirement ID: 5.5.1
- TS-74: Verify system maintainability and modular structure
Requirement ID: 5.5.2

The following test cases were designed to validate key system functionalities based on defined requirements.

General Preconditions:

- Browser is opened.
- Internet connection is available.
- The Nirvana Japanese Spa website is available.
- Test environment: desktop and/or mobile browser.

TC-01: Verify navigation to "About Us" page

Requirement: 3.1.1.1, 3.2.5

Preconditions:

- User is on homepage <https://nirvanajapanesespa.com/en/>

Step:

Click on "About Us" button

Expected Result:

- User is redirected to "About Us" page
- Correct page content is displayed
- URL is correct

TC-02: Verify “About Us” page content

Requirement: 3.2.1, 3.2.2, 3.2.3, 3.2.4

Preconditions:

- User is on "About Us" page

Steps:

Open the "About Us" page, review page content.

Expected Result:

- General information about the spa is displayed
- Spa philosophy and services are described
- Wellness concept is clearly presented
- Target audience is mentioned (individuals, couples, groups)
- Contact information is visible

TC-03: Verify navigation across main pages

Requirement: 3.1.1.1, 3.1.1.2, 3.1.4, 3.3.2.6, 3.4.2.4, 3.5.5

Step:

Open homepage.

Click:

"About Us"

"Catalog"

"Promotions and Discounts"

"Company Policy"

Observe navigation

Expected Result:

- Each link opens correct page
- URL is correct
- Page loads without errors

TC-04: Verify layout consistency after navigation

Requirement: 3.1.3, 3.1.5, 3.1.6, 4.2.4, 5.1.4

Environment:

Desktop (Chrome, Safari), Mobile (iPhone)

Step:

Open website <https://nirvanajapanesespa.com/en/> on mobile, navigate between multiple pages, observe layout.

Expected Result:

- Layout is consistent
- Menu is displayed correctly
- No duplicate elements
- No horizontal scrolling
- Images and fonts are responsive

TC-05: Verify language switcher consistency

Requirement: 3.1.5, 4.2.2.6

Step:

Open website <https://nirvanajapanesespa.com/en/>,
switch language (RU / EN / HE),
navigate to different pages (including Promotions page),
check language switcher.

Expected Result:

- Language switcher is visible on all pages
- All supported languages (RU, EN, HE) available on all pages
- Language switcher is displayed consistently across all pages with the same design, structure, and behavior
- All available language options (RU, EN, HE) are present and consistent on all pages

TC-06: Verify Services Catalog functionality

Requirement: 3.3.2.1, 3.3.2.2, 3.3.2.3, 3.3.2.5

Step:

Open "Services Catalog" <https://nirvanajapanesespa.com/en/services-en/>,
switch languages, navigate to "Services Catalog",
review services, expand service sections

Expected Result:

- Services have description, duration, price
- Services categorized correctly
- Sections collapsed by default
- Tabs/sections expand and collapse correctly

TC-07: Verify social media link (Facebook/Instagram/TikTok/YouTube)

Requirement: 3.1.8

Step:

Click on Facebook, Instagram, TikTok, YouTube icons

Expected Result:

- Social media page opens in a new tab
- Correct spa account is displayed

TC-08: Verify booking/contact form functionality

Requirement: 3.6.2, 3.6.3, 3.6.4, 3.6.7

Step:

Open website <https://nirvanajapanesespa.com/en/>,
open booking/contact form, fill all fields, select service,
submit form.

Expected Result:

- Form accepts input
- Submission works
- User is redirected to secure payment page

TC-09: Verify UI elements and links behavior

Requirement: 4.2, 4.5, 4.6, 4.7, 5.3.2

Specific Preconditions: User is on the homepage.

Step 1: Hover over links

Expected Result 1: Pointer cursor is displayed on hover.

Step 2: Click social media icons

Expected Result 2: Social media links open correctly in a new browser tab.

Step 3: Click internal navigation links

Expected Result 3: Navigation works correctly and the selected/open page link color changes according to the design specification.

TC-010: Verify content accuracy and text correctness

Requirement: 3.3.2.1, 5.3.3

Step:

Open website and switch language to Russian,
navigate to "Services Catalog",
open "SPA packages ROYAL" section,
review service description text

Expected Result:

- All text is displayed correctly
- No spelling or grammatical errors
- Content is readable and consistent

TC-011: Verify external link behavior (open in new tab)

Requirement: 5.3.2, 3.1.7

Steps:

Open website <https://nirvanajapanesespa.com/en/>,
switch language to Russian,
navigate to "Company Policy" page,
scroll down to external links section and
click on "Политика и правила акций" link.

Expected Result:

- External links open in a new browser tab
- Current page remains open
- User session is preserved

TC-012: Verify language consistency across pages

Requirement: 3.1.5, 4.2.2.6

Steps:

Open website <https://nirvanajapanesespa.com/en/>,
switch language to Russian,
navigate to "Company Policy" page,
check page title.
Repeat steps for English language.

Repeat steps for Hebrew language.

Expected Result:

- Page title matches selected language:
 - Russian > "Политика компании"
 - English > "Company Policy"
 - Hebrew > "מדיניות ונהלים"
- No mixed-language UI elements
- Language is consistent across all pages

TC-013: Verify homepage recommended services and promotions display

Requirement: 3.1.2

Preconditions: Homepage is opened.

Step 1: Check the recommended services section.

Expected Result 1: Recommended services are displayed.

Step 2: Check promotions/special offers section if displayed on homepage.

Expected Result 2:

- Promotions or special offers are visible.
- Information is readable and relevant.
- Links/buttons from these sections lead to correct pages.

TC-014: Verify gallery functionality

Requirement: 3.1.9, 3.1.9.1, 3.1.9.2

Preconditions: Homepage is opened.

Step 1: Click the "Gallery" button/link.

Expected Result 1: Gallery page/section opens correctly.

Step 2: Check gallery categories.

Expected Result 2: Image categories are displayed.

Step 3: Open an image.

Expected Result 3: Image opens in lightbox preview.

Step 4: Close the image preview.

Expected Result 3:

Lightbox can be closed.

The page remains functional after closing preview.

TC-015: Verify gallery image loading performance

Requirement: 3.1.9.3, optionally 5.1.1

Step: Open gallery page, observe image loading, refresh the page and check loading again.

Expected Result:

- Images load without broken placeholders.
- Images are optimized and do not cause long page loading.
- Page loads within acceptable time.

TC-016: Verify footer information

Requirement: 3.1.10, 4.8.1, 4.8.2, 4.8.3, 4.8.4, 4.6.4

Preconditions: Homepage is opened.

Step 1: Scroll down to the footer.

Expected Result 1: Footer section is displayed.

Step 2: Check address, map/Waze, opening hours, reviews/ratings if present.

Expected Result 2: Footer contains the physical address, map/Waze link, opening hours, and reviews/ratings if implemented.

Step 3: Hover over the “Scroll to Top” arrow button.

Expected Result 3:

The “Scroll to Top” button changes color from coral red (#DD7171) to dark red (#D33).

Step 4: Click the “Scroll to Top” arrow button.

Expected Result 4: The page scrolls back to the top.

TC-017: Verify Promotions and Discounts page content

Requirement: 3.4.1, 3.4.2.1, 3.4.2.2, 3.4.2.4

Preconditions: Homepage is opened.

Step 1: Navigate to “Promotions and Discounts”.

Expected Result 1: Promotions page opens correctly.

Step 2: Review promotional packages.

Expected Result 2: Promotional packages are displayed.

Step 3: Check prices and included services.

Expected Result 3:

- Price and included services are shown.
- Information is readable and consistent with the selected language.

TC-018: Verify Company Policy page content

Requirement: 3.5.1, 3.5.2, 3.5.3, 3.5.4, 3.5.5

Preconditions: The “Company Policy” page is opened.

Step 1: Check page title and content.

Expected Result 1:

- Page title and content of the page is displayed correctly and according to the design specification.
- All content matches the selected language.

Step 2: Review booking terms.

Expected Result 2: Booking terms are present.

Step 3: Review cancellation policy.

Expected Result 3: Cancellation policy is present.

Step 4: Review health declaration and age restrictions.

Expected Result 4: Health declaration and age restrictions are displayed.

TC-019: Verify gift payment option

Requirement: 3.6.6

Step 1:

Open booking/contact/payment form.

Check available payment/service options.

Select gift payment option, if available.

Expected Result 1:

- Gift payment option is available.
- User can select it.
- Select gift payment option, if available.
- Users can proceed without errors.

Traceability :

Requirement ID	Description	Test Scenario	Test Case	Bug ID/ Defect ID	Status
3.1.1.1 3.2.5	Navigation to About Us	TS-01, TS-20	TC-01	-	Pass
3.2.1, 3.2.2, 3.2.3, 3.2.4	"About Us" page content	TS-19	TC-02	-	Pass
3.1.1.1, 3.1.1.2, 3.1.4, 3.3.2.6, 3.4.2.4, 3.5.5	Navigation across main pages	TS-01, TS-02, TS-03, TS-26, TS-30, TS-33	TC-03	-	Pass
3.1.3, 3.1.5, 3.1.6, 4.2.4, 5.1.4	Layout consistency after navigation	TS-05, TS-15, TS-16, TS-46, TS-62	TC-04	BUG-006	Fail
3.1.5, 4.2.2.6	Language switcher consistency	TS-15, TS-44	TC-05	BUG-005, BUG-007	Fail

3.6.6	Gift payment option	TS-39	TC-019	-	Partially Executed

Test Approach

Testing is based on functional and non-functional requirements defined in the SRS.

Testing includes cross-browser and mobile compatibility validation.

The following testing types are applied:

- Functional Testing
- UI Testing
- Localization Testing
- Exploratory Testing

Test scenarios were created to cover all major features of the system.

Test cases were designed for key functionalities and areas where defects were identified.

Defects were documented and linked to corresponding test cases.
